About Us

Nedstar is a global sourcing partner specialising in bulk ethanol and spirits for food and non-food applications. With customers and a partner network in over 60 countries, our goal is to change the conservative ethanol industry with a high standard of quality products and trusting relationships based on sustainable and honest business practices.

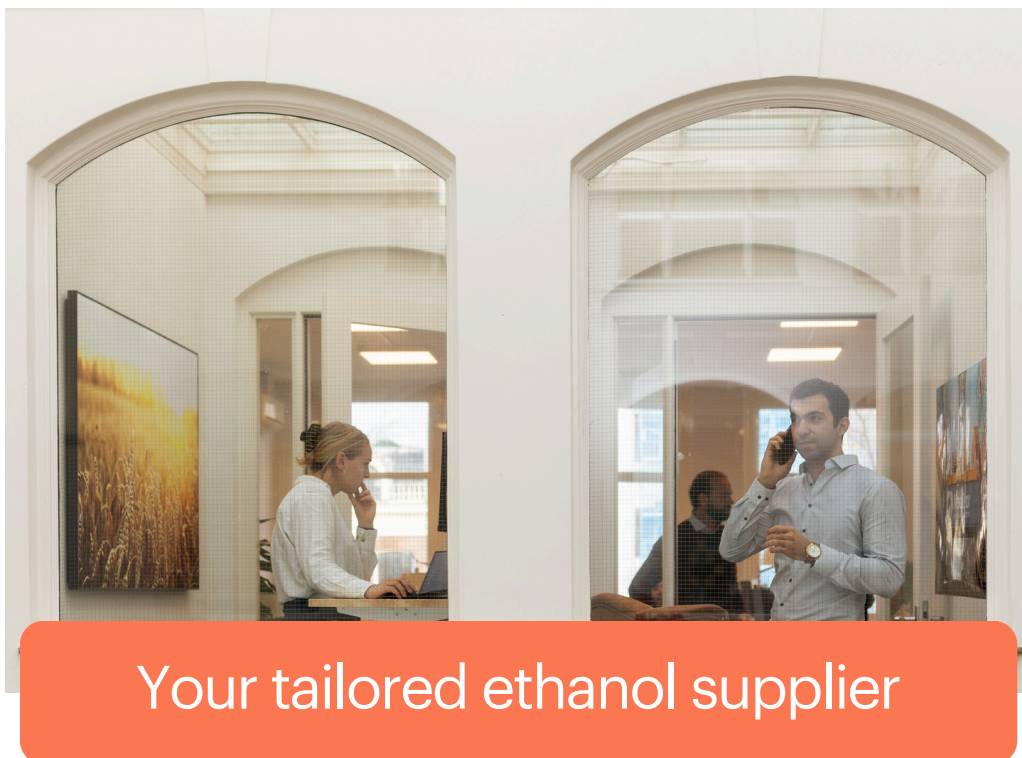

Our international team of commercial and logistic experts is focused on finding the best product solutions, tailoring each order to your needs.

Food-grade Ethanol

Organic Alcohol

- Alcohol by volume (ABV) at 20°C > 96%
- Neutral odour, colourless
- Made exclusively from organic ingredients, such as sugar cane or grain alcohols, without the use of pesticides or synthetic fertilizers

Extra-neutral Alcohol

- Alcohol by volume (ABV) at 20°C > 96%
- Neutral odour, colourless
- Made from raw materials such as sugarcane, molasses and grains like corn, rye, wheat, barley and rice

Molasses Alcohol

- Alcohol by volume (ABV) at 20°C > 96%
- Pungent odour, colourless
- Obtained from sugarcane or sugar beet processing

Bulk Spirits

ABV at 20°C

Whisky

> 40%

- Odour and colour vary according to the type of whisky
- Aged between 2 to 25 years
- We offer Scotch, Irish, Bourbon, Rye and Corn

Rum

40% to 95%

- Taste and colour vary with the ageing process
- Aged between 6 months to 6 years
- We offer White, Amber, Dark, Aged and Overproof rum

Brandy

38% to 77%

- Yellow-golden to red in colour with a sweet to mildly spicy taste
- Aged between 6 months to 15 years
- Made from organic grape alcohol

Cachaça

48%

- Light and smooth taste with a spicy, mineral finish and colourless appearance
- Unaged or aged for up to 5 years
- Made from premium sugar cane alcohol

Bulk Spirits

ABV at 20°C

Agave Spirits

38% to 55%

- Taste and colour vary according to the product and its ageing process
- Aged from 1 month to 4 years. Made from the premium agave plant
- We offer Tequila, Mezcal, Raicilla, and Bacarona

Gin

35% to 55%

- Dry, with a juniper flavour and colourless appearance
- Made from grain alcohol with botanical blends
- We offer London Dry, Plymouth, Old Tom, Genever, American, and Flavoured gin

Cider

4,5% to 14,9%

- Yellow-amber-brown in colour with a natural sweet and acidic taste
- Aged from 3 months to 2 years
- Made from fermented apple juice

Bulk Spirits

ABV at 20°C

Cognac

40% to 60%

- Reddish-brown in colour with a sweet, spicy, fruity, and bitter flavour
- Aged from 2 to +14 years
- Made from organic white grapes alcohol

Armagnac

52% to 60%

- Brighter flavour with earthy tones
- Aged from 1 to +10 years
- Made from organic white grape alcohol

Malt Wine

40% to 80%

- Dry taste with caramel tones
- Unaged or aged for up to 3 years
- Made from premium grain alcohol such as wheat, rye, and corn

Baijiu

40% to 60%

- Floral, fruity, saucy, or spicy
- Made from sorghum or other premium grain alcohol like wheat, rice, and barley

Bulk Whisky

ABV at 20°C

> 40%

Odour and colour

Both vary according to the type of whisky, as it extracts characteristics from the wood in which it's aged

Ageing

From 2 to 25 years

Our Whisky Selection

Scotch

Made from malt or grain, it has distinct smoky and peaty flavours

Irish

Made from malt, it can offer flavours ranging from light and floral to rich and complex

Bourbon

Made primarily from corn, it has a sweet and robust flavour profile due to ageing in charred oak barrels

Rye

Made from rye grain, it offers a spicier and fruitier profile

Corn

Made primarily from corn, it has a sweet and straightforward taste

Bulk Rum

ABV at 20°C

40% to 75%

Odour and colour

The taste and colour can vary according to the ageing process

Ageing

From 6 months to 6 years

Our Rum Selection

White/Light

With a clear or slightly pale colour and a mild flavour profile

Gold/Amber

Aged longer than white rum, it has a richer colour and a more complex flavour, often with notes of vanilla, caramel, and spices.

Dark/black

Deep, rich colour with a strong, full-bodied flavour profile.

Aged/Premium

Ranges from lighter styles with subtle oak influence to richer, aged tastes.

Overproof

Higher alcohol content with an intense flavour

Agave Spirits

ABV at 20°C

38% to 55%

Odour and colour

Taste and colour vary according to the type and ageing process

Ageing

From 1 month to 4 years

Our Agave Selection

Tequila

Crisp, clean, and herbaceous taste with a golden colour

Mezcal

Bold and smoky flavours with a soft yellow to amber colour

Dark/Black

Deep, rich colour with a strong, full-bodied flavour profile

Raicilla

Floral aroma with a clear to light amber colour

Bacarana

Crystal clear with a dry and complex taste

Bulk Gin

ABV at 20°C

35% to 55%

Odour and colour

Dry with a juniper flavour and colourless appearance

Our Gin Selection

London Dry

Crisp and dry taste with a predominant juniper flavour

Plymouth

Smoother and fruitier taste with a well-balanced juniper presence.

Old Tom

Sweeter style

Dutch/Genever

More robust flavour profile, which can be either sweet or dry

New Western/American

Creative botanical combinations

Flavoured/Infused

Gins infused with various botanicals, fruits, or herbs

Non-Food-Grade Ethanol

ABV at 20°C > 99.9%

Anhydrous Alcohol

Neutral and colourless. Applications consist of contexts where low water is essential. This includes solvents in laboratories and other specialised industrial and electronics industries.

ABV at 20°C > 96%

Alcohol 96% TSDA-1 Denatured

Neutral and colourless. Extra neutral alcohol 96% is denatured according to TSDA-1 to clients in Europe. Used in disinfectants, cosmetics, skincare products, and other beauty items.

REN Alcohol

Neutral and colourless. Mainly used in industrial applications such as solvents, cleaning products, vehicle windscreen wash, and burning alcohol.

Non-Food-Grade Ethanol

ABV at 20°C > 60% isoamyl alcohol

Fusel Oil

Pungent odour and colour ranging from pale yellow to dark green. Used as a high boiling point solvent, for example, in the lacquer industry. It also serves as a fragrance enhancer in the cosmetics industry.

Isoamyl Alcohol

Its pleasant, fruity smell makes it a popular ingredient in the manufacture of perfumes, cosmetics, fuel, and flavourings, especially banana oil.

Raw Materials

All of our raw materials have at least 96% alcohol by volume at 20°C, are neutral in odour, and colourless. Read more to discover the applications of each product:

Sugar Cane Alcohol

Used in applications such as distilled spirits, preservatives, and solvents for colourants and flavours.

Sugar Beet Alcohol

Used in applications such as distilled spirits, vinegar, and solvents for colourants and flavours.

Potato Alcohol

Used in the production of vodka and other spirits, as well as in non-food applications within the pharmaceutical and cosmetics industries.

Grain Alcohol

Made from raw materials such as wheat, corn, rye, barley, and rice. It is used as a flavouring agent in cooking and baking, as well as for imparting traditional flavours to spirits such as whisky and brandy.

Grape Alcohol

It is used in a range of traditional drinks, including sherry and other fortified wines, pomace brandies such as grappa, and spirits such as gin and vodka.

Apple Alcohol

Crafted from the fermentation of apples, it is a key ingredient in traditional alcoholic beverages. In the non-food industry, it is used in cleaning solutions, solvents, and disinfectants.

Packaging

Exporting ethanol to countries worldwide from over 60 international suppliers requires appropriate packaging. To ensure your product arrives safely to its destination, Nedstar offers a range of packaging options, suitable for any industry or volume of ethanol

Drums

205, 237.5, or 250 litres / 55.5, 58, 66 gallons

Made of HDPE plastic and suitable for shipping liquids and powders

ISO tank

25,000 litres / 6,605 gallons

Safe and efficient transportation by ship or truck

IBC tote

1,000 litres / 264 gallons

Reusable and stackable, suitable for smaller quantities

Tank truck

35,000 litres/ 9,246 gallons

Reliable and cost-effective solution available worldwide.

Barge vessel

Up to 2,450 tonnes

Ensures smooth delivery through intermodal freight transport

Denaturants

If you are not processing your alcohol for food or drinks, we can denature it for you. This means the product will be exempt from taxes. Choose from the following denaturants:

Bitrex

**EURO
DENATURED**

**TSDA
1-9**

IPA

DEP

MEK

TBA

Certifications

Nedstar's organic alcohol holds all relevant organic certifications for markets globally, including EU Organic and USDA Organic. Additionally, our ethanol is always certified to ISO22000, ISO9001, REACH and ECHA Art. 95 standards. We can also certify your product as kosher or GMO-free.
